OSI Requirements

I would like to make it clear that in naming [redacted] and either [redacted] or [redacted] to the special committee examining ORD and OEL projects, I did not convey to them any authority to serve requirements on behalf of OSI. I am sending you this note because I understand that both [redacted] and [redacted] each have forwarded requirements for [redacted] to you. This procedure is not in accord with the method by which OSI handles requirements for any ORD or OEL project.

So far as OSI is concerned, the requirements you have received represent no more than the views of the individuals themselves and I do not consider myself bound in any fashion to support them without appropriate consideration of the total needs of this Office.
